

THE GOODS

FALL
HOLIDAY 2021

 **DAVID
YOUNGSON &
ASSOCIATES**

In the first issue of The Goods we declared GRIT the Word of the Year. Imagine our delight seeing the word on one of the Empower bracelets by Scout Curated Wears.

Let's Celebrate

It's the most wonderful time of the year for retail! Our 70+ brands have just launched new collections and catalogues. To help you from feeling overwhelmed, we've scoured through tens of thousands of pages and images to filter out the most noteworthy goods and introduce you to the themes and trends you'll need to know about this holiday season. You'll see we indeed have the latest and most fabulous goods for everyone from newborns to grandparents, along with the family dog.

We are sensing the coming fall/holiday season to be one like never before. Some people are already shopping for Christmas, while others plan on

purchasing more gifts than ever to make up for last year's lockdown restrictions. Consumers are also eager to make up for lost time not working out at the gym, hosting parties, updating their décor and much more. The bonus? All of these ambitious endeavours involve plenty of shopping!

We invite you to take your time browsing through this Buyer's Guide, presenting unique opportunities for merchandising products from multiple lines, inspiration for creating custom gift sets and ideas for welcoming the season – and customers – into your store.

DESIGN IDEAS

ILLUMINATING IDEAS

As nights gets longer, Canadians yearn to fill their home with exquisite Root Candles in seasonal colours and scents. Stock up on bestselling rust, along with delicious new hues, butterscotch and pumpkin.

When setting candles out at mealtime, always opt for unscented dinner candles as you don't want the fragrance to compete with the smell of food or even wine.

For an eye-catching vignette, set up a trio of tapers, with the candles at different heights. To shorten any of the candles, carefully use a knife to cut from the base.

From the Elements Collection of four harmonious fragrances, the three-wick Fire candle is an intriguing blend of smoky amber and smoldering embers.

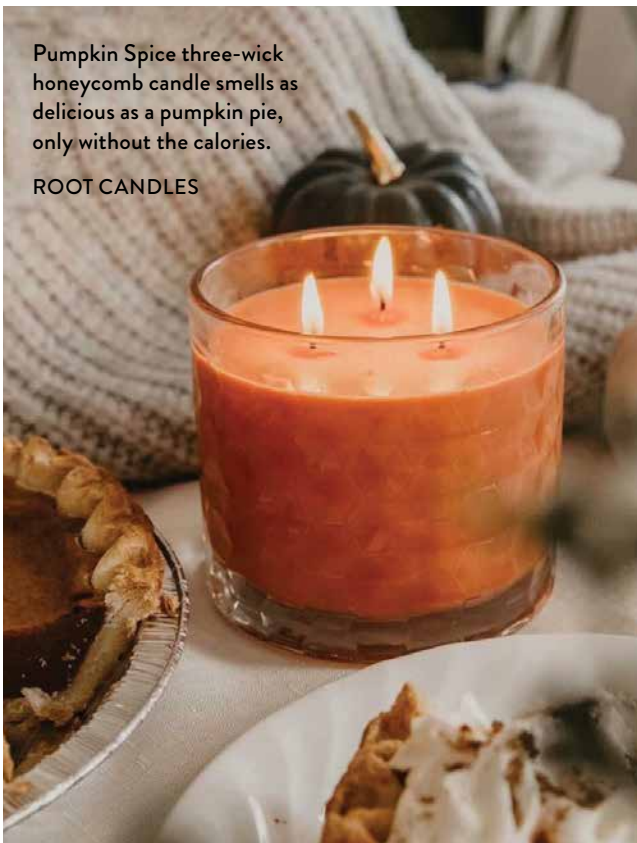

Rather than keeping spare candles stored away, showcase tapers as a décor element. Choose colour combinations to suit the season or match your room's colour scheme.

Instantly transform a room with autumn-inspired, sophisticated scents of Acorns & Suede, Leaves & Cashmere and Pinecones & Wool in ombre-finished vessels.

PUMPKIN PATCH

You're never too young – or too old – to crave a little pumpkin to spice things up in the fall.

Pumpkin Spice three-wick honeycomb candle smells as delicious as a pumpkin pie, only without the calories.

Welcome to Schitt's Creek, where everyone fits in. Ew, David. I'm going to need a stiff drink to get through this. I don't want to brag but US weekly once described me as "up for anything". It's my turn to take a selfish. I'm only doing this because you called me rude and I take that as a compliment. I have asked you thrice now for a towel. You know, being approachable isn't that important anyway. The Queen hasn't smiled since the 70's and her birthdays are still very well attended. Let's go. I've had enough waking hours for one day. I don't skate through life, David. I walk through life. In really nice shoes. This wine is awful. Get me another glass. I'm trying very hard not to connect with people right now. Fold in the cheese. I endorse all your sexual encounters. You're my Mariah Carey. Hide your diamonds, hide your exes, I'm a little bit Alexis. You are blind to reality and for that I am most grateful. I miss being surrounded by loose acquaintances who think I'm funny and smart and charming. Tweet us on Facebook. I have lost all my skills. And now I know how it feels to be utterly hopeless like you and your sister. Love that journey for me. You're simply the best.

DRAMATIC DÉCOR

BIDK Home marries the very latest décor trends with artisanal details, often using natural elements such as glass, marble and wood. Our favourite picks are sure to look perfectly at home in your store.

Candle holders and votives made with rough-hewn selenite from Morocco will add a cool vibe and a subtle glow to any room.

Finely-ribbed glassware with a matching carafe, sourced from Muubs Denmark, can be used for everyday and special days.

Timeless pairing of silver and gold always looks chic and these round trays add a hint of glamour to holiday entertaining.

In undulating carved marble, this lotus bowl is the perfect spot for peppermints or clementines, but looks like a work of art set out on its own.

The more, the merrier! Multiple ceramic pitchers in one-of-kind shapes and sizes make for a lovely display of functional forms.

For stark contrast, suggest stacking various sizes of these milky glass plates in black and white for all the courses being served.

Warming trend: when it comes to marble, white and black are always on point, but warmer tones are heating up tabletops of all sizes.

Time to bring in plants from the balcony or terrace? These textured, braided baskets are lined so plants can bloom and grow all winter.

With a luxe, nautical vibe, these copper-toned lanterns are must-haves to put out on covered porches, on the table and throughout the home.

GIFTS THAT *give back*
